Floral Aqua Jar:

This project is about making a different type of flora arrangement.

Materials Required:

- A glass jar with a lid (an old jam jar is fine). Any size of jar can be used.
- Blue-tac/plastercine.
- A toothpick.
- Selection of flowers including at least one rose, leaves or whatever you choose.
- Water.

Instructions:

Stick either the plastercine/blue-tac to the inside of the lid.

Using a toothpick, poke holes in the plastercine/blue tac to hold the flowers.

Arrange the flowers in these holes that you have just made.

Fill the jar with water.

Place the flowers, attached to the inside of the lid, into the jar and screw the lid firmly into place.

Tip the jar upside down.

Other Ideas:

Add food colouring to the water.

Add other decorations to the water – use your imagination here.

Have fun making this and bring it along to the show!
